

Introduction

With Oracle we are saying good by to Harvest and welcome to the time sheet filled in Oracle. Holidays, sick leave, public holidays will have to be filled in Bamboo. Time allocated onto project will have to be done on Oracle.

Weekly Time sheet

All principles we were applying in Harvest remain. We are encouraging you to do your time sheet on a regular basis. Maximum of 10 hours a day with a maximum of 8 hours onto one single project per day. Soon, should you log some leave time onto Bamboo for a specific day, you will not be able to have more than 8 hours on that same day.

Depending on your role you will have within the home ribbon transaction or Payroll & HR :

Select Home.

Then within the blue Ribbon : Select Transactions / Employees / Weekly Timesheet

Within the Production environment : Payroll & HR then Time Tracking / Weekly Timesheet

You will be able to navigate from one week to the other

If you don't have access to the project, ultimately the project leader will give you access. This won't be done by Finance any more.

Later you will be able to select a task from the list

In the Service Item box, please make sure to pick the

PROGRAMME EXPENDITURE : Personnel Cost : Salaries and social charges recharge. Later this will come automatically.

Donor and Thematic will come automatically from the project later too. For the moment you can leave them blank

Then put in the number of hours you worked

At the beginning of the following month. Project leader will have to approve the time you logged. Once done that means that time has been transferred onto the project and no more time can be added.

You can then Add a line by clicking on the Add button at the bottom

Once you are done, if you save, an email is sent to the time sheet approver. So do it once a month

Should you need to go back and change the entry
